

Environmental Policy

Aware of the role businesses have in the necessary transition to a sustainable economy, and determined to contribute to this process of continuous improvement, Trevisan & Cuonzo is committed to ensure that the environmental needs of today's generation are met.

In this regard, Trevisan & Cuonzo has decided to adopt a clear environmental policy that can allow a broad and sustainable vision for our future. Therefore, we commit to:

- complying with current environmental legislation and any related voluntary agreements for our professional sector;
- developing and maintaining offices with low environmental impact and low energy consumption;
- pursuing continuous improvement of our services and environmental performance;
- constantly monitoring our environmental performance management system and adopting the appropriate corrective measures in case of need;
- disseminating greater awareness among employees, collaborators and clients towards respect for the environment and responsible consumption of resources;
- selecting suppliers who can guarantee sensitivity to the environmental issues;
- informing interested parties about our policy and other objectives pursued by our firm, in order to promote an inclusive environmental culture.

This firm also commits to provide the necessary technical, economic and professional resources to achieve these environmental policy objectives.

This Environmental Policy is disseminated at all levels and it is everyone's duty to actively collaborate in pursuit of these objectives.

The firm guarantees, through subsequent verification activities, that this policy is understood and implemented.
